

ELEVATE

BUILDING ON FIVE STAR SUCCESS 

THE PROCESS

In the 2017-2018 school year, students, parents, staff and community members worked together to develop a new strategic plan to ELEVATE student success for years to come:

1 YEAR 7,000 PEOPLE 5 STRENGTHS

      } 6 FOCUS AREAS = 1 PLAN

THE CHALLENGE

Over the last 10 years, the state of Colorado has cut over \$373 million from Adams 12 Five Star Schools alone.

The Impact of Funding Cuts:

- ▶ Depleted and out-of-date learning materials
- ▶ Non-competitive pay compared to similar districts
- ▶ Increased staff-to-student ratios especially at grade levels 6-12

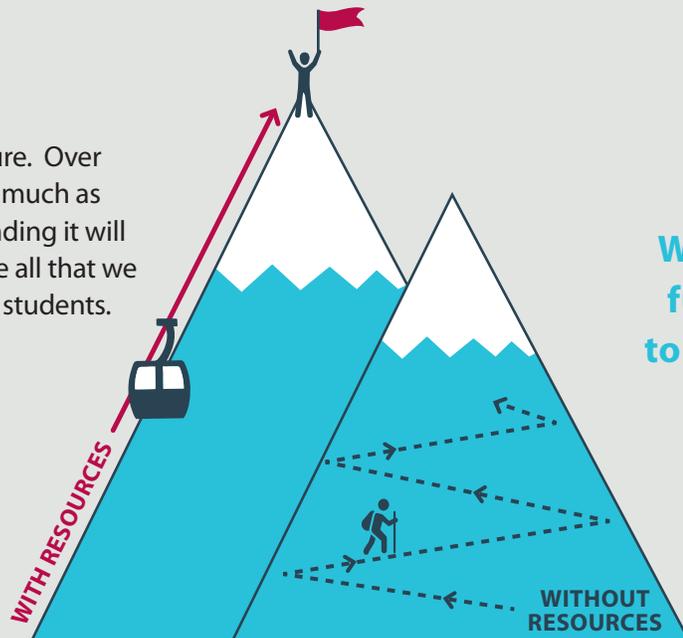

*We're down
\$373 million
in 10 years!*

THE REALITY

ELEVATE is our roadmap for the future. Over time, we will work to accomplish as much as possible. However, without new funding it will be extremely challenging to achieve all that we have collectively envisioned for our students.

The question is *when?*

With additional funding, we are on the express track for elevated success.

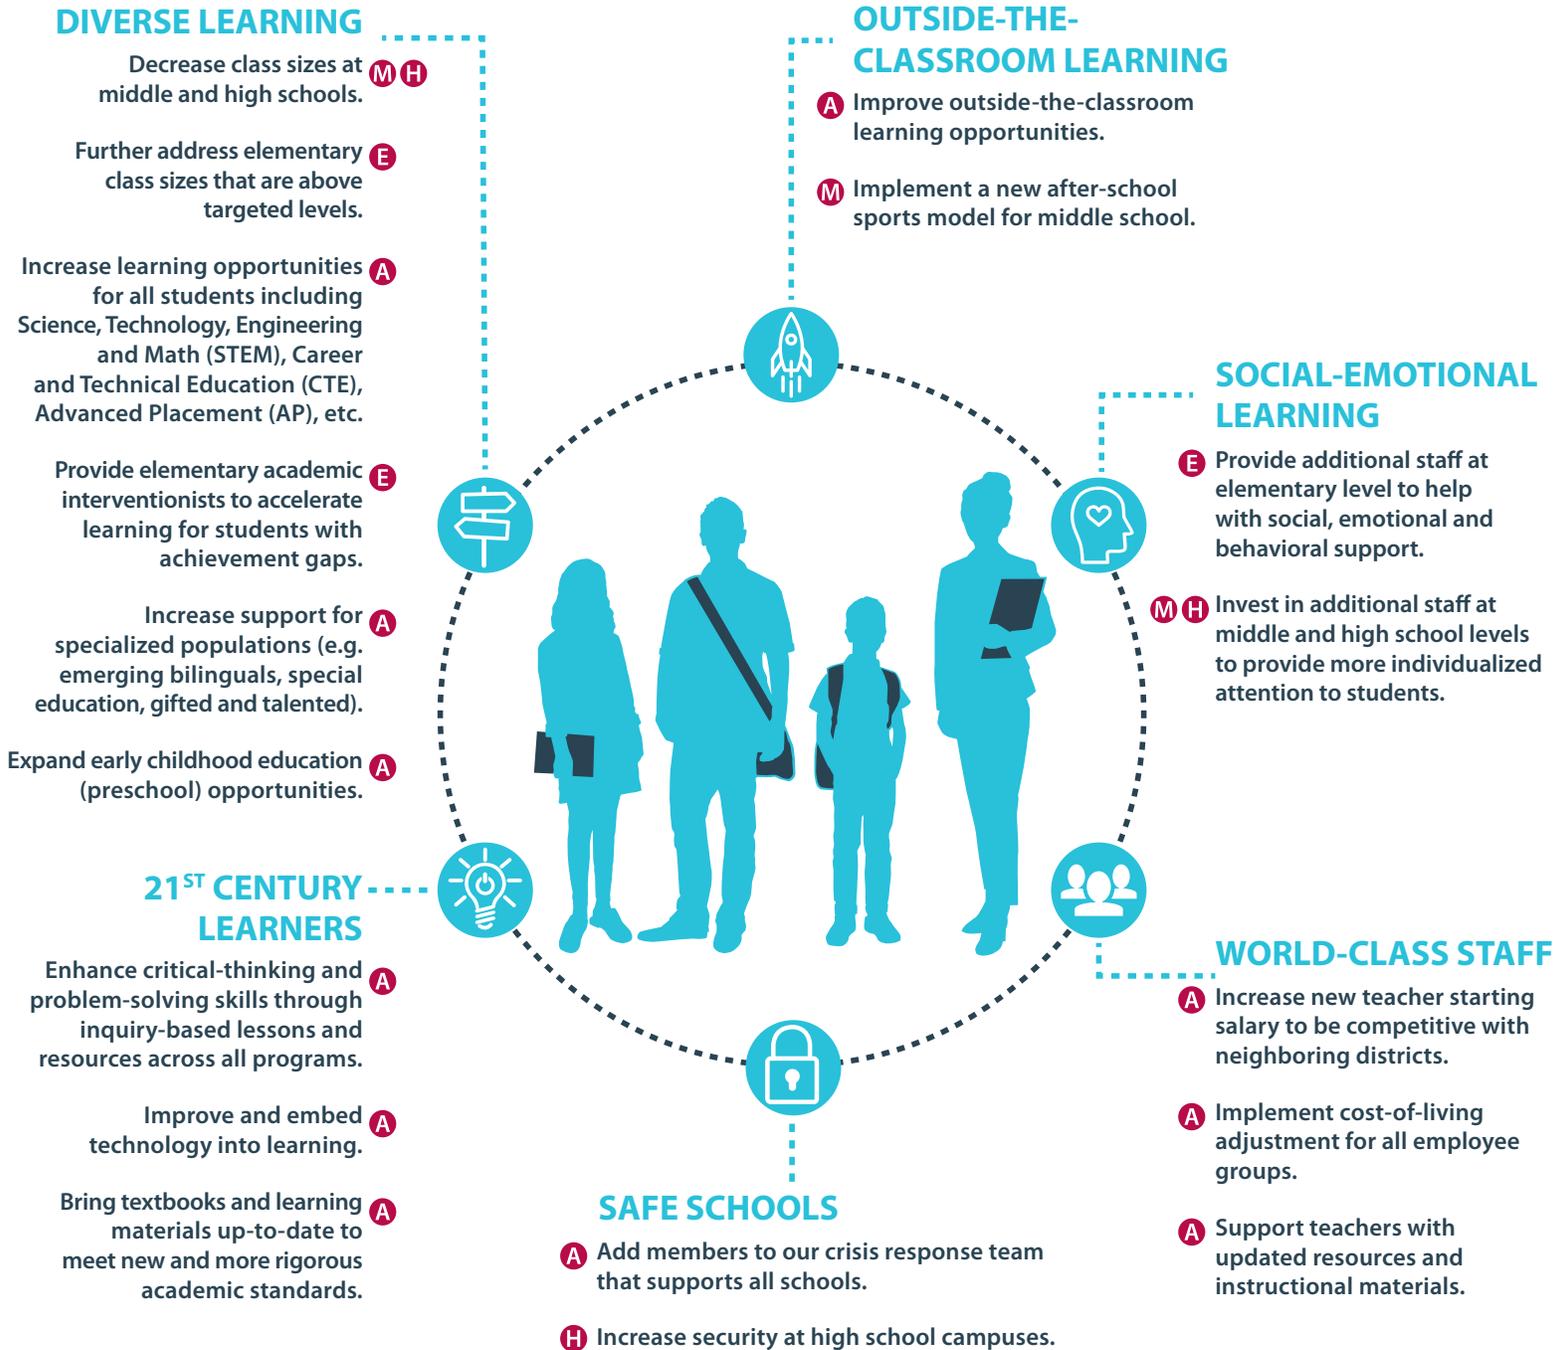

Without additional funding, our route to further success is rocky and slow.

View the plan's prioritized investments.

We worked this year to collectively determine a new strategic plan that envisions our future regardless of funding limitations, but challenges still exist. How we implement the tactics in the ELEVATE plan is dependent on resources.

See how the first priorities from the ELEVATE plan would impact our students:

Investments for specific grade levels
E Elementary **M** Middle **H** High **A** All Grade Levels

WHAT ELSE ARE WE PLANNING TO DO?
