**Please provide a brief description of why you think full-grade acceleration is needed at this time:**

As parent(s) of the above named student, I understand that:

- I am authorizing the Adams 12 Five Star School District to screen and administer appropriate assessments to determine appropriate educational placement for my child. This may include individual IQ testing with a district licensed school psychologist.
- If additional testing is required there may be a fee of up to \$275 associated with this process which may be requested upon submission of this application (unless accompanied by evidence of Free/Reduced Lunch Program participation.)
- Full-grade acceleration is a radical intervention which may not be appropriate for all students, and which should consider the social-emotional as well as academic impacts on students.
- Student and school support of full-grade acceleration is essential if this intervention is to be successful.
