

STUDENT SEX OFFENDERS

- 1.0 When the District receives notification that a student is registered as a sex offender, or of a student who has been adjudicated for a sexual offense(s) and is actively required to participate in offender treatment, the District shall seek to obtain information related to the nature of the offense(s) as allowable by law. Upon receipt of such information, the District administrator designated by the superintendent shall develop appropriate precautionary measures in cooperation with the building administration of the school in which the student is enrolled.
- 2.0 When the District receives notification that a petition has been filed in juvenile court alleging that a child has committed an offense that would constitute unlawful sexual behavior as defined by law, sanctions up to and including expulsion from school may result. The superintendent and/or his/her designee shall review relevant information in determining whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or of school personnel in the school, and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel.
