## **Five Star District outlines plan for media access to Legacy High School homecoming game**

Legacy High School will play its homecoming game against Prairie View High School on **Friday, Sept. 16 at 7 p.m. at North Stadium**, 12500 Delaware Dr., Westminster, CO 80234. [See directions](#). Please find enclosed with this press release a map that highlights where media parking will be located, including a separate location for any live trucks. The parking section reserved for media is at the east end of the south parking lot.

The only media entrance is through the southeast gate on the visitors' side of the field.

Given the circumstances and the high number of spectators expected to attend this game, there will be a specific location for media to stage. It is the south end of the track as you'll see on the map. Movement is allowed within that section of the track and nowhere else.

We are working to organize some pre-game interviews with students and/or school staff. **Those interviews will happen at 6 p.m.** Those being interviewed will be prepared to talk about the week at school, what kind of support the school has received from the community, their relationship with the football team, and their thoughts on homecoming week, etc. They will not address questions related directly to the accident and they are committed to respecting the privacy of injured players and coaches.

**Interim Head Coach Matt Craddock plans to do a postgame press conference.** He will address the game itself and the play of the team as is customary for postgame press conferences. Craddock is the team's defensive coordinator and was a former head coach at Thornton High School.

Due to the unique circumstances around this game, thank you in advance for honoring this plan.
