RE: Science and Cultural Facilities District request

The District has received a request from Citizens for Arts to Zoo (CATZ) for the Board to adopt a resolution in support of the reauthorization of the Scientific and Cultural Facilities District (SCFD) and the existing one-cent-on-\$10 sales tax that funds the SCFD. CATZ is a metro-regional group working to pass the measure. They have also offered to schedule a formal presentation at a Board meeting. Board members will determine if there is interest in pursuing the resolution and if they would like a presentation at the September 21 Board meeting.
